

HIIT Workout P2 Week One

Week One - M-W-F -Workout Routine:

For the first couple weeks, I will be focusing on bodyweight training. You will notice that I superset between upper body and lower body. This will allow me to get a lot of sets done in a shorter time. I am a big fan of supersets to keep the intensity high and short.

You can follow this program the way it is laid out. You may have to re-adjust the reps according to your fitness level. Try to do this exercise 3 times this week in nonconsecutive days.

All exercises are done in supersets. For example, Standard Pushup is super-setted with Chair Squats. Do NOT rest within the superset (between pushups and squats), but rest 1 minute after squats before repeating the superset.

For example: Perform Standard Pushup followed by Chair Squat and then rest for 1 minute or less. Repeat for a total of 3 "rounds" before moving the next "superset."
